

Lanai Lifestyle User Guide

Version 2.0 · A comprehensive step-by-step guide for navigating and using the platform.

Welcome! This guide walks you through the **Lanai Lifestyle** platform, one screen at a time, in simple everyday language. By the end you will be able to navigate the entire application, use every service, and understand what the AI is doing for you without needing to call anyone for help.

1. What is Lanai?

Lanai is a **luxury travel concierge** that lives on your computer. It helps a travel team run their business and helps members (the travellers) see and manage their trips in one place.

There are **two areas**, like two doors into the same building:

Area	Who uses it	What it's for
Advisor Portal	The Lanai team	Run the business: clients, trips, proposals, AI assistance, invoices
Member Portal	The travellers (members)	See your trips, documents, proposals, and message your advisor

The platform has an **AI assistant built in**. It helps write proposals, prepare daily briefings, understand clients, and draft replies to messages. Think of it as a fast assistant that drafts content for you to review before sending.

2. Logging In

2.1 Advisor Portal

1. Open your browser and go to the web address your team gave you (for example `https://lanai.newfire.app`).
2. Click the **Sign In** button.
3. You will be taken to a secure login page.
4. Type your **email** and **password**.
5. Click **Sign In** again to land on your **Dashboard**.

If you forget your password, click the "**Forgot password**" link on the login page.

2.2 Member Portal

1. Go to the member link (usually ends in `/client`).
2. Type your **email** and your **PIN**.
3. You will land on your personal **Trip Dashboard**.

First time? Your advisor sends you an invitation email with a link to set your PIN.

3. The Advisor Portal: Screen by Screen

The **left-hand menu** is your map. Click any item to move between screens. Below is every screen, what it's for, and how to use it.

3.1 Dashboard (Home Base)

The Dashboard: your at-a-glance overview.

This is your **at-a-glance overview**. It shows live numbers pulled from your records: **Total clients**, **Open travel requests**, **Active members**, and **Pipeline value**.

How to use it: Start here every day. It tells you what needs attention at a glance.

3.2 Clients (Client Directory)

The Clients screen: searchable list of every client.

A searchable list of **every client**.

- 1. Use the **search box** to find someone by name, email, or city.
- 2. Click the **Add Client** button to add a new person.
- 3. See each client's contact details at a glance.

Showing 7 of 7 members

Stored in Postgres

The Members screen: your active membership base.

Your **active membership base**. Each member has a tier (Platinum, Gold, Silver) and status.

How to use it: See who your members are, their tier, and their details. Click into a member to see their profile and history.

3.4 Travel Requests (Trip Pipeline)

The screenshot shows the LANAI Lifestyle interface. On the left is a dark sidebar with navigation links: Overview (Dashboard, Morning Briefing, Revenue Analytics), Client Management (Clients, Members, Travel Requests), AI Intelligence (Proposal Engine, Client Intelligence), and Operations (Suppliers, Supplier Services, WhatsApp, Unified Inbox, Chatwoot Inbox). The main area is titled 'Travel Requests' with a subtitle '6 requests from members' and a 'Refresh' button. Below the title are status filters: All, New (2), In Progress (1), Proposal Sent (1), Booked (1), Completed (1), and Cancelled (0). A search bar is present. The table below lists 6 requests with columns: REQUEST, MEMBER, DATES, PAX, STATUS, UPDATED, and ACTION.

REQUEST	MEMBER	DATES	PAX	STATUS	UPDATED	ACTION
Tuscany It is a personal trip, it is really needed	Joe Frazier joe@lanai.test	2026-08-10	1	New	1d ago	New
London, UK	Noah Tanaka noah@lanai.test	10-17 Oct 2026	1	Completed	2d ago	Completed
Kyoto, Japan	Amelia Laurent amelia@lanai.test	5-12 Nov 2026	2	New	2d ago	New
Amalfi Coast, Italy	James Okafor james@lanai.test	20-27 Jul 2026	4	Booked	2d ago	Booked
Bali, Indonesia	Sophie Whitmore sophie@lanai.test	1-14 Dec 2026	2	In Progress	2d ago	In Progress
Santorini, Greece	Demo Member demo@lanai.test	14-21 Sep 2026	2	Proposal Sent	2d ago	Proposal Sent

Showing 6 of 6 travel requests

The Travel Requests screen: every trip request from first enquiry to booking.

Every trip a client has asked for, from first request to completed booking.

1. **Search** by destination or member.
2. Use the **status buttons** at the top to filter (New, In Progress, Proposal Sent, Booked, Completed, Cancelled).
3. Use the **Update Status** dropdown on any row to move a request to its next stage.

What the stages mean: New (just asked) → In Progress (being worked on) → Proposal Sent (you've sent them options) → Booked (confirmed) → Completed (trip done) → Cancelled.

3.5 Proposals (AI Co-Pilot)

The screenshot shows the 'Proposal Co-Pilot' interface within the LANAI Lifestyle system. The left sidebar contains navigation links for Overview, Client Management, AI Intelligence (with 'Proposal Engine' highlighted), and Operations. The main content area is titled 'AI PILLAR 2 Proposal Co-Pilot' and includes a description: 'Describe the client's dream trip. The AI generates a full proposal — you personalise and present.' Below this are two tabs: 'Streaming (live output)' and 'Structured (sections)'. The 'Structured (sections)' tab is active, showing a 'Trip Details' form. The form includes a 'Persisted Client Context' section with 'Member' and 'Structured Request' dropdowns. Below this is a note about pre-filling trip details. The main form fields include 'Client Name', 'Destination', 'Trip Type', 'Duration', 'Budget Range', 'Party Size', 'Special Occasion', and 'Known Preferences'. A right-hand box contains instructions to fill in the trip details and click 'Generate Proposal' to create a personalised luxury travel proposal, noting that the proposal will appear word-by-word as the AI writes it.

The Proposal Engine: the AI writes client-ready proposals for you.

The **AI proposal generator**. Instead of writing a trip proposal from scratch, the AI drafts it for you.

1. Enter the client's details, including name, destination, dates, travellers, budget, and preferences.
2. Click **Generate**.
3. The AI writes a complete, client-ready proposal: accommodation, a day-by-day itinerary, experiences, estimated cost, and next steps.
4. **Review it, tweak it, and send it.**

A note on AI: Generation can take a minute or two. The AI only uses the facts you give it and clearly labels any assumptions. It never invents confirmed prices or availability.

3.6 Intelligence (Client Insights)

The Intelligence screen: the AI analyses each client's profile.

A per-member **client intelligence** view. Pick a member and the AI looks at their profile to surface a summary of their travel history and preferences, open opportunities, and risks or gaps.

How to use it: Select a member, then read the AI's summary to get up to speed before you speak with them.

3.7 Morning Briefing (Daily Priorities)

The Morning Briefing: a daily digest of priorities.

Generates a **daily briefing** with a digest of the day's clients, follow-ups, and priorities.

How to use it: Click **Generate Briefing**. The AI pulls together what matters for the day so you know where to focus. (This can take a minute or two.)

3.8 WhatsApp (AI Message Bridge)

The WhatsApp screen: the AI triages messages and drafts replies.

When a client messages you on WhatsApp, the platform recognises the contact, runs **AI triage** (intent, urgency, mood), **drafts a reply** for you to review and send, and logs a **note** and **task** against the client automatically.

How to use it: Open a message, review the AI's suggested reply, edit if you like, and send.

3.9 Inbox (Unified Messaging)

The unified Inbox: all client conversations in one place.

Your **unified messaging inbox** (powered by Chatwoot). All client conversations across WhatsApp, email, and portal messages in one place.

1. See all conversations and who's assigned to them.
2. Reply directly.
3. Use the **AI Draft** button to get a suggested reply, then edit and send.

24/7 AI auto-reply: When a member sends a message through the portal, the platform **replies automatically around the clock** so no message ever goes unanswered, even outside working hours. Your manual replies always take priority, and the system never replies to its own messages.

3.10 Communication Hub (Client Overview)

The Communication Hub: a one-stop view of a client's communications.

A **unified view** of a client's communications and activity to see the full picture of your relationship at a glance.

3.11 Analytics (Revenue & Pipeline)

The Analytics screen: revenue and pipeline.

Revenue analytics showing income, commissions, and pipeline value to track business performance.

3.12 Invoicing (Billing & Commissions)

The screenshot displays the 'Invoicing' interface of the LANAI Lifestyle system. The left sidebar contains a navigation menu with sections: OVERVIEW (Dashboard, Morning Briefing, Revenue Analytics), CLIENT MANAGEMENT (Clients, Members, Travel Requests), AI INTELLIGENCE (Proposal Engine, Client Intelligence), and OPERATIONS (Suppliers, Supplier Services, WhatsApp, Unified Inbox, Chatwoot Inbox). The main content area is titled 'Invoicing' and includes a subtitle 'Client invoices and supplier commission reconciliation'. At the top right, there are buttons for 'Month-end Reconciliation', '+ Client Invoice', and '+ Commission Invoice'. Below the title, there is a search bar 'Search invoices...' and a status filter 'All Status'. Two tabs, 'Client Invoices' and 'Commission', are visible. The main area shows a list of three invoices:

Invoice ID	Due Date	Amount	Status	Action
INV-2026-0001	14/07/2026	USD 29,500	Paid	
INV-2026-0002	14/08/2026	GBP 24,500	Sent	
LAN-202608-6928	04/08/2026	USD 100	Draft	

The Invoicing screen: create and track invoices.

Create and manage **client invoices** and **supplier commission invoices**.

How to use it: Create an invoice and track its status (Draft, Sent, Paid, or Overdue) along with due dates.

3.13 Task Templates (Workflow Automation)

The Task Templates screen: pre-made templates for common workflows.

Pre-made templates for common tasks and workflows so you do not have to start from scratch each time.

How to use it: Pick a template, and it fills in the standard steps for you to adjust and use.

3.14 Suppliers (Vetted Partner Network)

The Suppliers screen: your vetted supplier network.

Your **vetted supplier network** covering hotels, villas, yachts, jets, transfers, and experiences.

How to use it: Browse suppliers, see their category, location, rating, preferred status, and contact details.

3.15 Supplier Services (Service Offerings)

The Supplier Services screen: the services each supplier provides.

The **services each supplier provides** (rooms, dining, experiences, and more).

How to use it: Add a service to a supplier, or submit an inquiry for a service you need for a client.

3.16 Settings (Platform Configuration)

The Settings screen: account and platform configuration.

Your **account and platform settings** covering profile details, preferences, and system configuration.

4. AI Services: What to Expect

The platform uses a **local AI assistant** to help you work faster. Here are the plain-English guidelines:

- **AI is a helper, not a replacement.** It drafts proposals, briefings, and replies that you should **review and personalise** before sending.
- **It uses the facts you give it.** The more accurate your client details, the better the output.
- **It labels its assumptions.** AI never claims availability, prices, or supplier confirmations unless you provide them.
- **Generation takes a little time.** Complex proposals can take a minute or two, which is normal.

5. The Member Portal (for travellers)

The Member Portal is your **private space** to manage your travel with Lanai.

5.1 Trip Dashboard

Your personal overview showing your **active and upcoming trips**, their status, and quick access to your documents and proposals.

5.2 Proposals

View the **proposals** your advisor prepared for you, including accommodation, itinerary, experiences, and investment, in a clean, client-ready format. You can review and respond.

5.3 Documents

Access your **travel documents** (itineraries, confirmations, and vouchers) in one secure place.

5.4 Billing

View your **invoices and payment status** for your trips.

5.5 Profile

Manage your **personal preferences**, such as favourite destinations, cabin class, room type, and dietary needs, so your advisor can tailor everything to you.

5.6 Messages

Chat securely with your advisor through the portal. **You will receive an instant reply around the clock** because the AI concierge acknowledges your message right away and routes it to your advisor, ensuring you are never left waiting.

6. Services at a Glance

Service	Where	What it does
Live CRM	Advisor Portal	Every client and contact in one place
AI Proposals	Advisor Portal	Drafts complete client proposals in minutes
AI Intelligence	Advisor Portal	Analyses each client for opportunities & risks
AI Morning Briefing	Advisor Portal	Daily digest of priorities and follow-ups
WhatsApp AI	Advisor Portal	Triage + draft replies for WhatsApp messages
Unified Inbox	Advisor Portal	All client conversations in one place
24/7 AI Auto-Reply	Both portals	Instant AI replies to member messages, day or night
Supplier Network	Advisor Portal	Vetted hotels, yachts, jets, transfers & experiences
Invoicing	Advisor Portal	Client & commission invoices
Analytics	Advisor Portal	Revenue and pipeline at a glance
Client Portal	Members	Trips, documents, proposals, billing & preferences

7. Frequently Asked Questions

Q: I received a "Too many requests" message. What should I do?

A: This is a temporary safeguard. Wait a few minutes and try again.

Q: How long does an AI proposal take?

A: Usually 1–2 minutes. The platform shows you when it is ready.

Q: Can a client see my internal notes?

A: No. The client portal only shows what you choose to share (proposals, documents, trips, billing).

Q: Where do WhatsApp messages appear?

A: In the **Inbox** and the **WhatsApp** page, with an AI-drafted reply ready for you.

Q: Will members always get a reply?

A: Yes. The 24/7 AI concierge replies to every member message automatically, providing a personalised reply when available or a warm acknowledgment otherwise.

Q: I cannot log in to the client portal.

A: Check your email and PIN. If you have forgotten your PIN, contact your advisor to resend an

invitation.

8. Getting Help

- **Advisors:** Contact your platform administrator for access or support.
 - **Members:** Your dedicated Lanai advisor is your first point of contact for anything in the portal.
