

BUSINESS OVERVIEW

Lanai Lifestyle

The intelligence layer we are building for your concierge business.

WE ARE BUILDING THIS FOR YOU.

OUR STORY

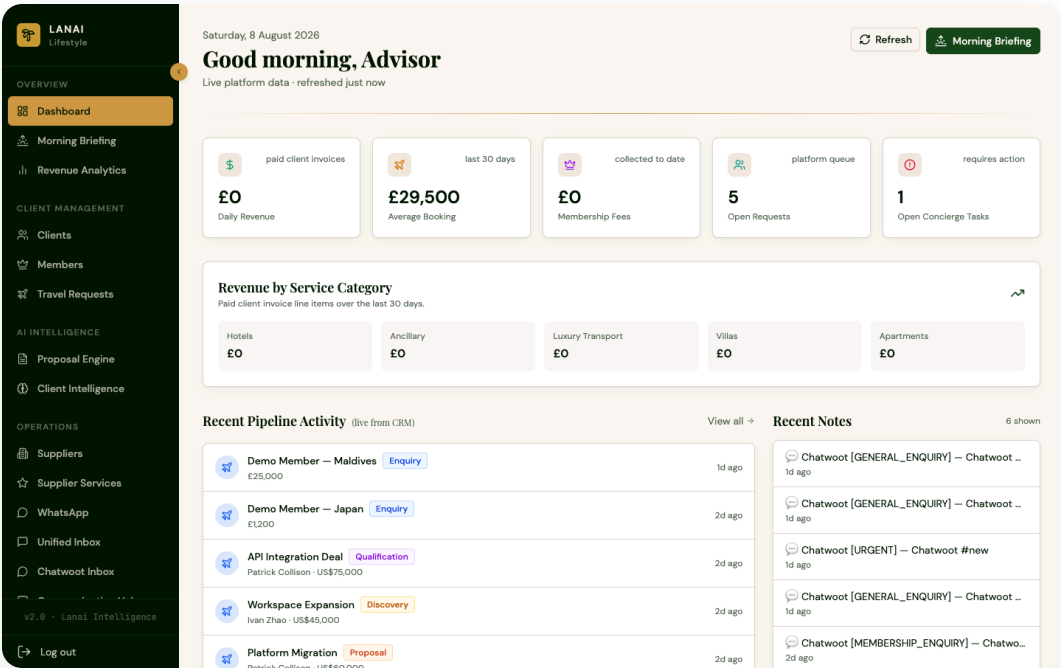

Every great journey begins with a conversation.

Let me share why we are building this, and what it can mean for your business.

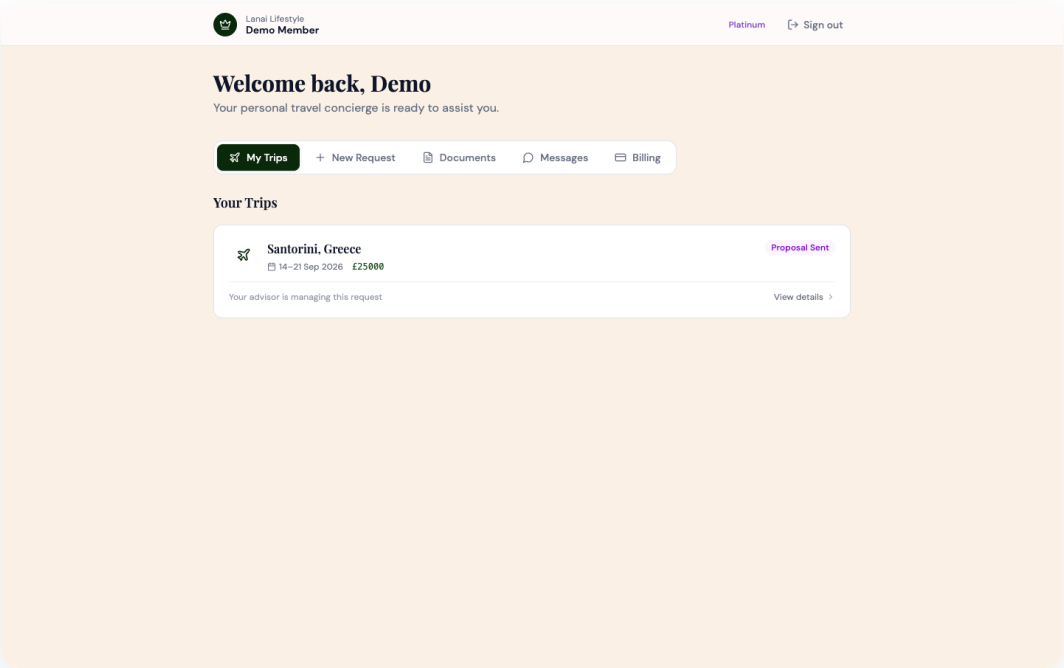

WHAT IT IS

One platform behind your entire concierge business.

We are building a single system that connects your advisors, your members, and the intelligence to serve them well.

ADVISOR WORKSPACE

MEMBER PORTAL

WHY IT EXISTS

Your business competes on relationships. Fragmentation erodes them.

Today the work spreads across email, messaging, spreadsheets, and memory. That creates four risks we are solving.

Context is lost

**Advisors buried in
admin**

Inconsistent service

**Reactive, not
anticipatory**

The risk is not moving too fast. It is standing still while competitors automate the relationship.

HOW IT CREATES VALUE

Five ways Lanai creates value for your business.

Connected data and AI assistance, turned into measurable outcomes across your client relationships.

Advisor productivity
Less admin, more relationship.

Faster proposals
An intelligent first draft, not a blank page.

Retention and LTV
Churn signals and next-trip prompts that protect lifetime value.

Premium experience
A private portal that makes your service feel exclusive.

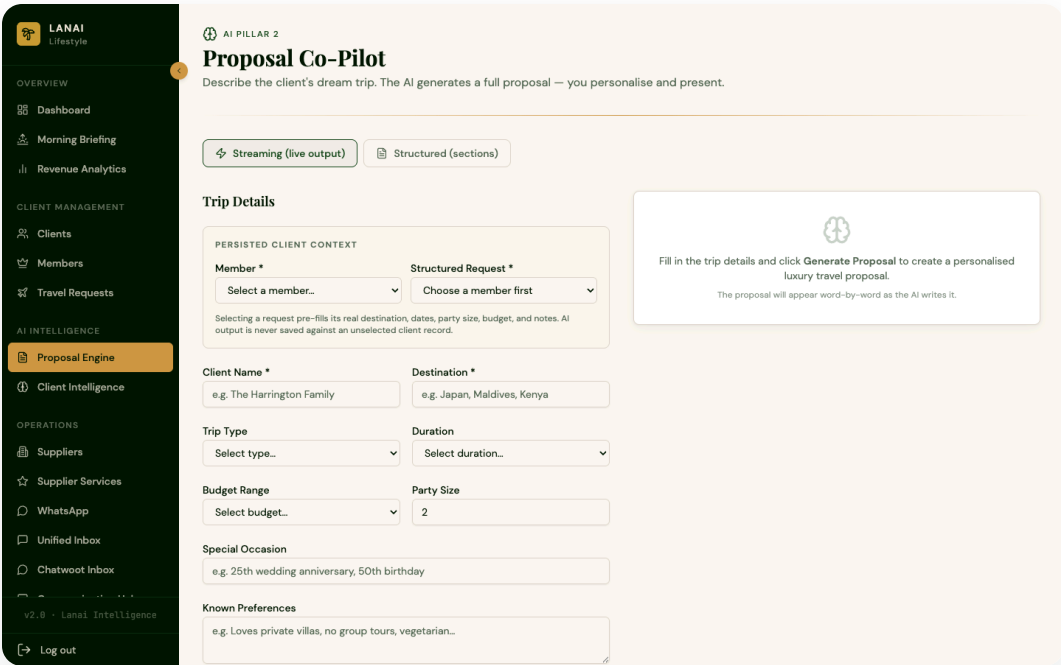

Operational visibility
Pipeline, capacity, and revenue in one picture.

From information management to relationship management.

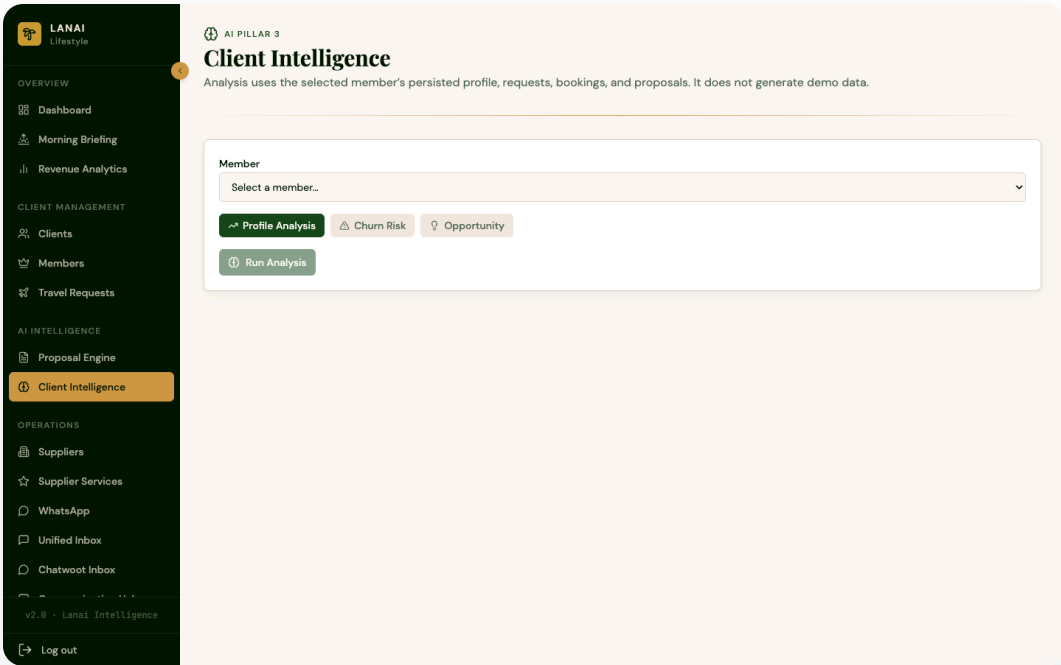

HOW IT WORKS

Your advisor, augmented at every step.

AI supports your advisor where it creates the most value, while your advisor retains judgement and the relationship.
