

BUSINESS OVERVIEW

Lanai Lifestyle

The intelligence platform for luxury travel concierge.

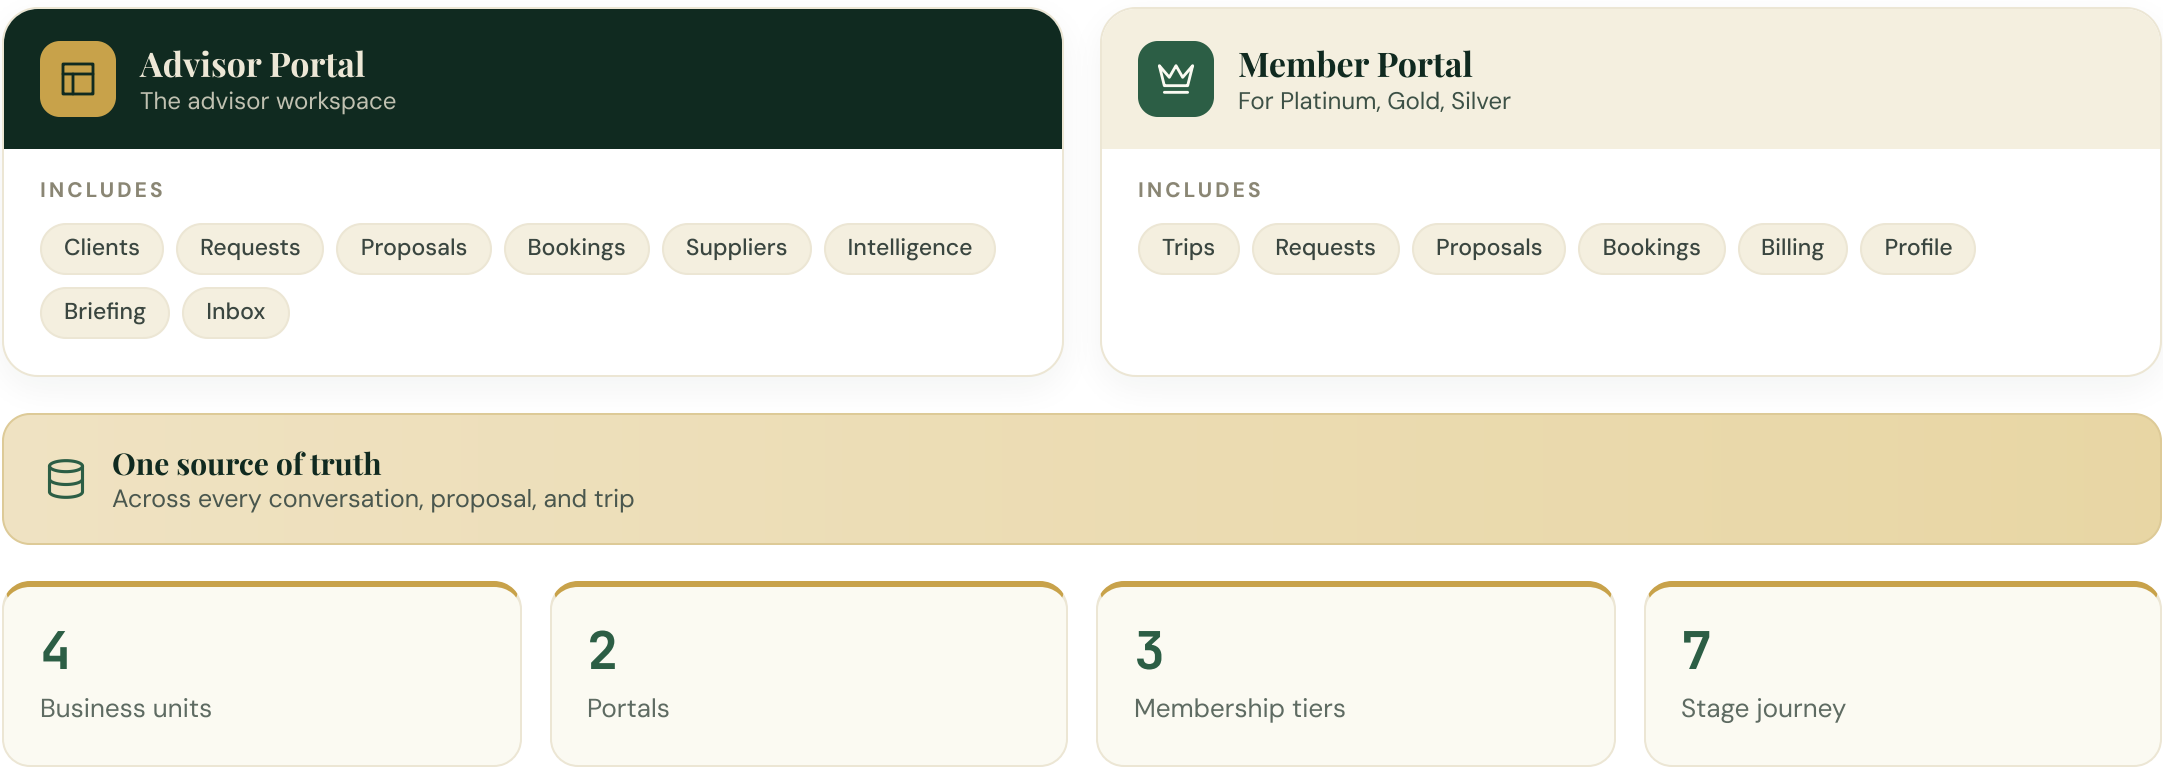

CONFIDENTIAL. PREPARED FOR CLIENT REVIEW.

WHAT IT IS

One platform for the entire concierge relationship.

Lanai unifies the advisor workspace and the member portal into a single system, covering Membership, Travel, Events, and Lifestyle. High-touch service, powered by intelligence.

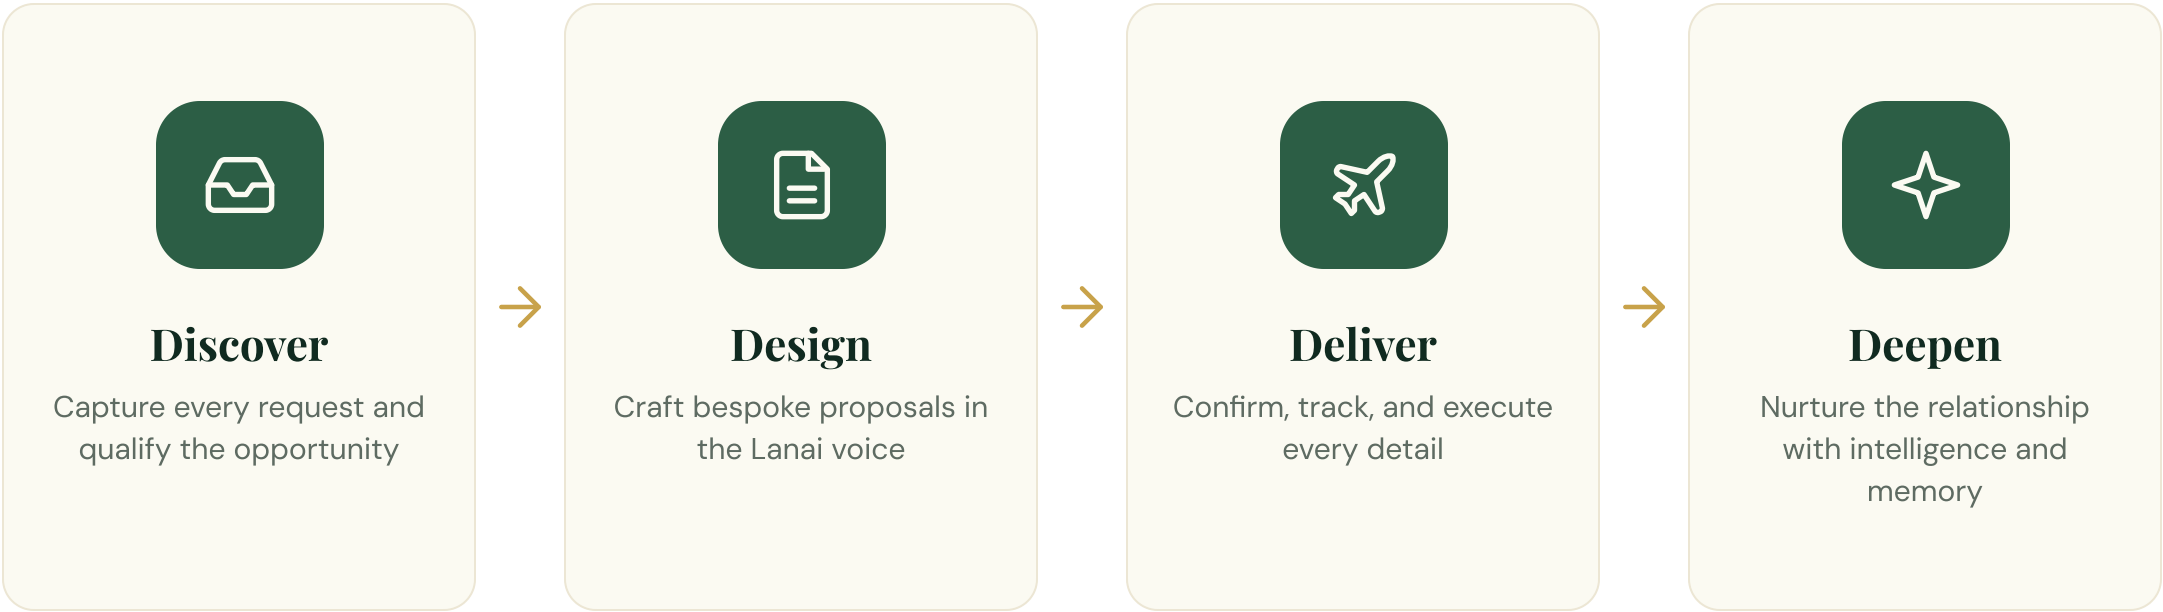

Every record, from first enquiry to lifelong relationship, lives in one connected system.

WHAT IT COVERS

From first enquiry to lifelong relationship.

Lanai owns the full client journey, not just the transaction. Every stage lives in one connected record.

Seven stages. One continuous relationship.

WHY NOW

Relationships are the product. Operational drag is the cost.

Luxury travel runs on relationships, but the work behind them still lives in inboxes, spreadsheets, and memory. Advisors who scale the relationship without losing the human touch will define the next decade.

Run on fragments

Client knowledge, supplier contacts, and trip history scattered across tools. Every handoff is a risk to the relationship.

Rising expectations

Wealthy travellers expect service that remembers everything. Manual outreach cannot keep pace with that expectation.

Intelligence as edge

The advantage belongs to teams who give every advisor the memory and speed of a full organisation.

\$11.9B

AI in luxury travel, projected by 2034 (directional)

+40%

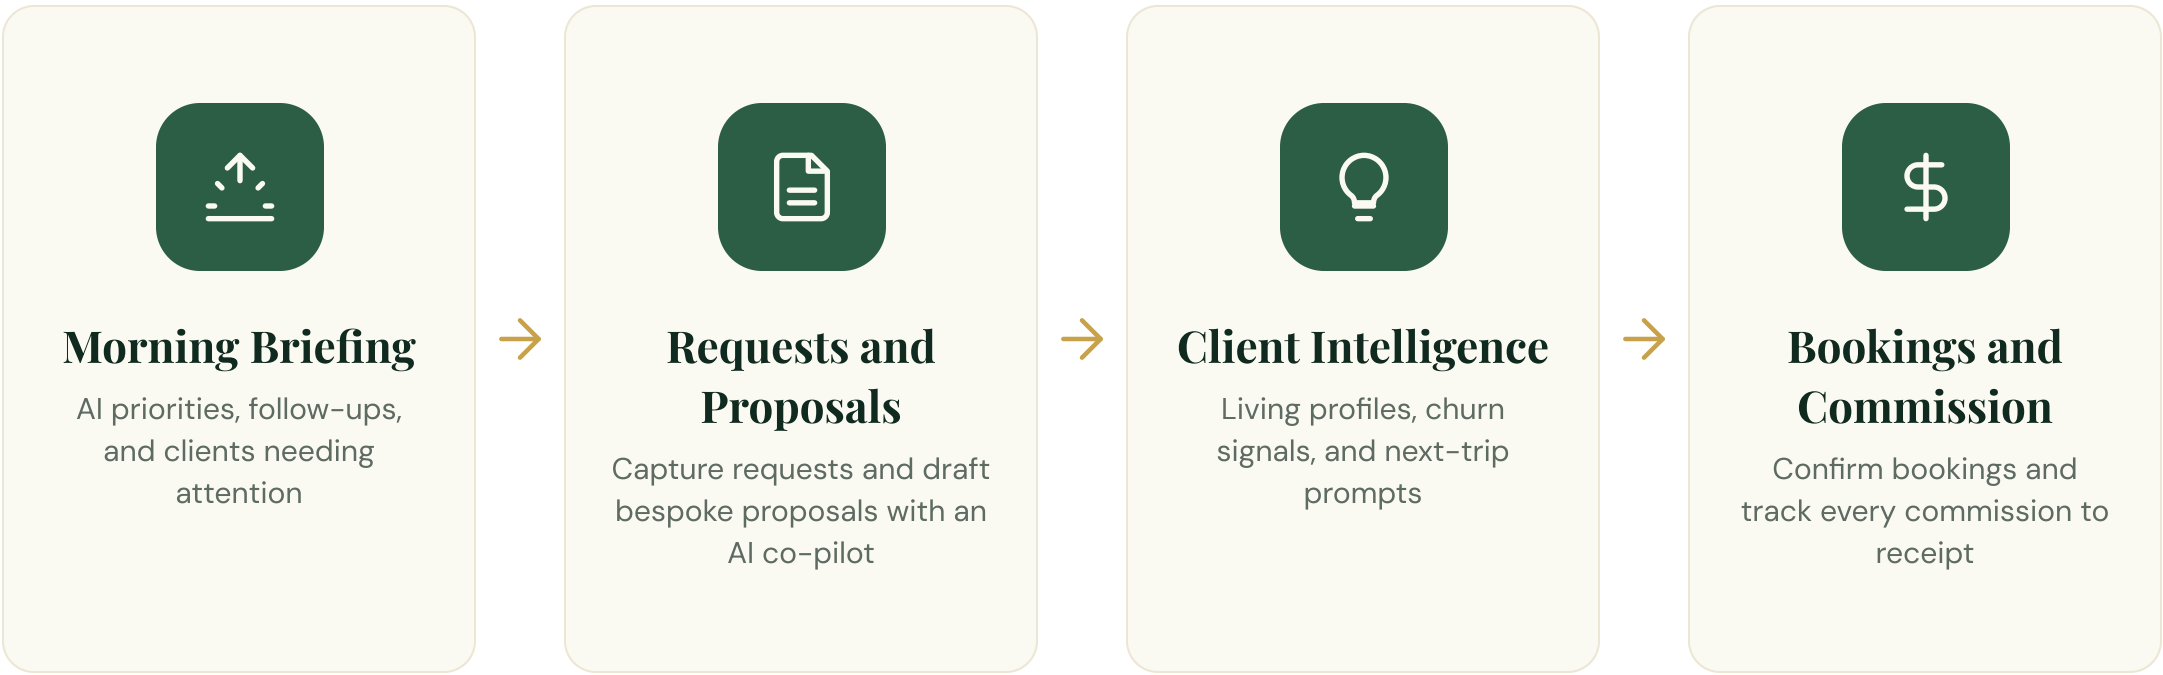

Higher repeat booking with CRM-driven retention

The risk is not moving too fast. It is standing still while competitors automate the relationship.

Every advisor, backed by the whole organisation.

From the morning briefing to commission received, an advisor's day flows through one workspace.

A private digital home for every member.

A calm, branded space to request, review, and track, with tier and relationship front and center.

Request anything

Submit travel, event, or lifestyle requests in seconds.

Review proposals

Approve or respond to bespoke proposals with full itinerary and pricing.

Track bookings

Follow every booking from confirmed to complete.

Billing and membership

Membership fees and payments, handled in platform.

Recognised tier

Platinum, Gold, or Silver status reflected across the experience.

Platinum

Gold

Silver

The portal extends the advisor, it never replaces them.

An AI co-pilot for every advisor.

The intelligence layer does the work advisors cannot scale alone, while keeping the human firmly in control.

Proposal Co-Pilot

Drafts bespoke proposals and itineraries in the Lanai voice, grounded in the client's full history.

Client Intelligence

Surfaces preferences, churn signals, and next-trip opportunities automatically.

Morning Briefing

A daily digest of priorities, drafted from overnight messages and client activity.

Draft Replies

Suggested responses across WhatsApp and email, ready to review and send.

Private by design. Local AI models. No client data sent to third parties. Every output grounded, never invented.

Plugged into the systems your business depends on.

Lanai connects the tools a modern concierge business already runs, so nothing lives in isolation.

CRM Sync

Two-way sync with your CRM, one source of truth for every client

Omnichannel Messaging

WhatsApp, email, and chat in one inbox

Payments

Membership billing and payments handled in platform

Commission Ledger

Every commission tracked from expected to received

Single Sign-On

Secure staff access through enterprise identity

Supplier Network

Suppliers, services, and preferred rates in one directory

Audit and Events

Every action logged, every event durable

Role-Based Access

The right people see the right clients

THE OPPORTUNITY

High-touch service, at the speed of intelligence.

Lanai gives every advisor the memory, speed, and reach of an entire organisation, so the relationship that differentiates your business can scale without losing its soul.
